

Alex Fracazo

Product Designer

I design and build end-to-end, from research and strategy through to a working product. Most recently I led design for GitLab's Knowledge platform as sole designer in an engineering-led group, growing feature adoption 33% and shipping code to production.

EXPERIENCE

2022 – Current · Remote, global

GitLab

Senior Product Designer

Sole designer on the Knowledge team in an engineering-led group, reporting to the Senior Director of Product Design, owning Wiki, GLQL (GitLab Query Language), Pages, and text editors.

+33% adoption · shipped my own code

- Led GLQL (GitLab Query Language) from research through GA launch, growing adoption 33% and shipping my own code to production via merge requests.
- Led the Wiki UX transformation, shipping the sidebar redesign to production through code contributions, and finalising the contextual comments design system now in engineering development.
- Ran usability studies and a survey on AI code review that exposed trust and control problems, driving a full product pivot to an author-facing writing assistant.

2021 – 2022 · Sydney

Hireup

Principal Product Designer

Australia's largest disability support marketplace. Sole designer on the iOS and Android app team.

Connection rate 3% → 5% (+67% relative)

- Found through data analysis that 39.1% of clients were messaging inactive workers, dragging down platform-wide connection rates.
- Designed an availability visibility system across iOS and Android that lifted connection rate from 3% to 5% (+67% relative), response rate from 39.1% to 45.8%, and drove +46% inactive worker reactivations.
- Redesigned the core booking experience, achieving a +12% increase in booking rates.

2016 – 2020 · Sydney

Arq Group and Outware Mobile

Lead Product Designer

Led product design across mobile, web, and wearable for Qantas, Woolworths, and NAB. Established research practices and mentored designers across teams.

+70% app downloads · Sydney Design Award

- Led the Qantas Entertainment app redesign end-to-end (+70% downloads).
- Designed the Australian ETA visa app, winner of the Sydney Design Award.

2015 – 2016 · Sydney

Vodafone

Senior Product Designer

- Led UX for the self-service team across web and native apps, and established user research and testing processes across multiple products.

B2W Digital

Senior Product Designer

LATAM's largest e-commerce company.

1 design system · 3 apps unified

- Designed a responsive white-label e-commerce platform supporting multiple branded stores, and created an internal design system that improved consistency across 3 native apps.

Earlier: Bem Direto (2012–2013), first designer at Brazil's first real estate marketplace for agents · Smartia (2011–2012), Brazil's first car insurance comparison platform · Artia (2009–2011), built my own UI in Haml, Sass, and Rails · Sitevip (2005–2009), front-end coder in a fast-paced agency.

PROJECTS

2026

BirthGuide ↗

A consumer birth-planning product for Australian first-time parents, designed and built solo, end-to-end, on Next.js, React 19, Supabase, and Stripe using AI-powered tools (Claude, Claude Code). Parents answer a guided questionnaire and receive an interactive birth plan with a QR code midwives scan on their phone, plus a printable partner summary.

- Reframed the category from 'printable template' to 'labour communication tool' after research revealed the partner is the primary plan reader during active labour.
- Validated real usage with Clarity session recordings, and built free tools, guides, and an AI chat assistant as an organic acquisition strategy.

SKILLS

DESIGN

UX research, product strategy, interaction design, design systems, prototyping, iOS and Android

BUILD AND SHIP

Next.js, React, TypeScript, Tailwind CSS, Supabase, Stripe, Vercel, Git

AI TOOLS

Claude, Claude Code, Cursor, OpenCode, Claude Design

ANALYTICS

GA4, Clarity, cohort analysis, A/B testing

EDUCATION & MORE

UX Master Certificate (UXMC)

Nielsen Norman Group, 2021 · Interaction, Research, Management

MBA

d.MBA, 2020

User Experience Design Immersive

General Assembly, Sydney, 2015

Interaction Design

Faber-Ludens Institute, Brazil, 2010–2012

Publication

"Build a new website in a few easy steps with GitLab Pages", GitLab Blog, 2025

Design Mentor
